2. CITATIONS AND EXPLANATIONS

Claims 1-11 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the inventions claimed therein. Applicant's response filed 09 August 2004 has been received and taken into consideration. Applicant's arguments are persuasive, Sheriff et al. (1998) does not teach a suboptimal dose of a CREB function stimulating agent. Thus Sheriff et al. (1998) does not meet each and every limitation of the claims.

Claims 12-16 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the inventions claimed therein. Applicant's response filed 09 August 2004 has been received and taken into consideration. Applicant's arguments are persuasive, Ying et al. (1997) does not teach a suboptimal dose of a CREB function stimulating agent. Thus Ying et al. (1997) does not meet each and every limitation of the claims.

Claims 17-18 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the inventions claimed therein. Applicant's response filed 09 August 2004 has been received and taken into consideration. Applicant's amendments have overcome the teachings of Kang et al. (2001).

Claims 19-25 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the inventions claimed therein. Applicant's response filed 09 August 2004 has been received and taken into consideration. Applicant's arguments are persuasive, Son et al. (2001) does not teach steps (e) to (o) of claim 19 and thus does not meet each and every limitation of the claims.

Claims 1-25 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
